About GPO Access

GPO Access is a service of the U.S. Government Printing Office that provides free electronic access to a wealth of important information products produced by the Federal Government. The information provided on this site is the official, published version and the information retrieved from GPO Access can be used without restriction, unless specifically noted. This free service is funded by the Federal Depository Library Program and has grown out of Public Law 103-40, known as the Government Printing Office Electronic Information Enhancement Act of 1993.

GPO Access home page at: <http://www.gpoaccess.gov>

- **A-Z Resource List:** <http://www.gpoaccess.gov/databases.html>

Use GPO Access to search or browse official, full-text information from the three branches of the Federal Government. Databases are updated based on their print equivalent and generally date back to 1994. *Biennial Report to Congress on the Status of GPO Access*.

- **Federal Depository Library Program:** <http://www.gpoaccess.gov/fdhp.html>

For more than 140 years, the Government Printing Office (GPO) has kept America informed by producing and distributing Federal Government information products. GPO combines conventional technology with state-of-the-art methods whether providing public access to Government information online, or producing or procuring printed publications that serve the information needs of the U.S. Congress, Federal agencies, and the American public.

- **Preservation Agreement with NARA:** <http://www.gpoaccess.gov/about/naramemofinal.pdf>

The National Archives and Records Administration (NARA) recognizes GPO as an official archival affiliate for the electronic content on GPO Access. Signed in 2003, the NARA-GPO agreement provides for the permanent preservation and access to the online versions of the *Congressional Record*, the *Federal Register*, the *Code of Federal Regulations*, and other appropriate publications from GPO Access.

- **U.S. Government Online Bookstore:** <http://bookstore.gpo.gov/>

Locate and order publications (books, maps, serials, videos, CD-ROMs, subscriptions) available for sale through the Information Dissemination (Superintendent of Documents), U.S. Government Printing Office. Orders may be placed online, via mail, fax, phone, teletype. Online orders are encrypted to ensure secure transactions.

- **GPO Customer Contact Center:** <http://www.gpoaccess.gov/help/index.html>

Users needing assistance with GPO Access can contact the GPO Contact Center. These highly trained specialists are available Monday through Friday (except Federal holidays) from 7:00 a.m. to 8:00 p.m. The Contact Center may be reached via :

- **Ben's Guide to U.S. Government:** <http://bensguide.gpo.gov/>

Ben's Guide serves as the educational component of GPO Access by providing learning tools for K-12 students, parents, and educators. The site provides age-specific explanations about how the Federal Government works, explains the use of the primary source materials.

Brief History of the Monthly Catalog

The Printing Act of 1895 specified two products for the description and collation of public documents.

- The Catalogue of the Public Documents of the [...] Congress and of All Departments of the Government of the United States (Document Catalogue) fulfilled the requirement for a "comprehensive index of public documents" to be prepared "at the close of each regular session of Congress."
- The *Monthly Catalog of United States Government Publications* (MoCat) met the stipulation for a "Monthly Catalogue which shall show the publications printed during a month, where [those publications are] obtainable, and the price thereof."

Thus, the original relationship was a current awareness listing (in the MoCat) and a permanent, authoritative, and comprehensive catalog (in the Document Catalogue).

In 1947, the cost and perennial difficulty of compiling the Document Catalogue led the Superintendent of Documents to recommend to the Joint Committee on Printing that the Catalogue be discontinued after the edition for 1940 was completed. The MoCat began to serve in the capacity of a single source for bibliographic information, fulfilling the requirements of the 1895 act, which stand to this day in 44 USC §1710-1711.

From 1895 until 1976, the Government Printing Office (GPO) arranged and described documents

according to its own standards and systems. A major revision of the appearance and functionality of the MoCat took place in July 1976. GPO catalogers began producing machine-readable cataloging records (MARC) conforming to Anglo-American Cataloging Rules (AACR), Library of Congress Subject Headings (LCSH), the Ohio College Library Center (later the Online Computer Library Center, OCLC) bibliographic standards and formats, and other applicable national level standards. Since that time, GPO has gradually expanded the emphasis of its cataloging and indexing program from the production of a single printed product to the creation and maintenance of a database of high-quality, standards-based bibliographic records. These records are used by GPO and the library community to support an expanding array of bibliographic control activities.

The bibliographic data used to produce this abridged paper edition is also used to produce a World Wide Web (WWW) edition. The Web edition links users directly from bibliographic citations to electronic publications, and assists the public to locate information in depository libraries and through GPO sales. GPO bibliographic data is also available to libraries from the GPO and from a variety of commercial sources for the creation of high quality local databases and public access catalogs.

The first of these is the fact that the United States is a young nation. It is only about 150 years old, and its history is therefore a history of rapid growth and change. The second is the fact that the United States is a large nation. It covers a vast area of land, and its population is one of the largest in the world. The third is the fact that the United States is a diverse nation. It is made up of many different peoples, races, and religions, and this diversity has been a source of strength and vitality for the country. The fourth is the fact that the United States is a nation of immigrants. Many of the people who live in the United States today are the descendants of immigrants from other countries, and this has helped to shape the country's culture and identity. The fifth is the fact that the United States is a nation of pioneers. The people who first settled in the United States were pioneers, and they have left behind a legacy of courage and adventure. The sixth is the fact that the United States is a nation of freedom. The people of the United States have fought hard to secure their freedom, and they have passed on this freedom to their children. The seventh is the fact that the United States is a nation of progress. The people of the United States have always been looking for ways to improve their lives, and they have achieved many great things. The eighth is the fact that the United States is a nation of hope. The people of the United States believe in a better future, and they are working hard to make it a reality. The ninth is the fact that the United States is a nation of love. The people of the United States love their country, and they love each other. The tenth is the fact that the United States is a nation of peace. The people of the United States want to live in peace, and they are working hard to achieve this goal.

1. The purpose of this document is to provide a comprehensive overview of the current status of the project and to identify the key areas that require further attention.

2. The project has been progressing well, with significant milestones achieved. However, there are several areas that require further attention, including the need to improve communication and coordination between the various teams involved.

Area	Current Status	Key Issues
Project Management	On Track	Need for improved communication and coordination
Technical Development	Progressing	Need for further research and development
Testing and Evaluation	Completed	Need for further testing and evaluation
Deployment and Support	Not Started	Need for further planning and preparation

3. The project is currently in the planning phase, and the next steps are to develop a detailed project plan and to allocate resources. It is important to ensure that the project is well-managed and that all team members are aware of their roles and responsibilities.

4. The project is expected to be completed by the end of the year, and it is important to ensure that all milestones are met. The project team should be kept informed of any changes or updates to the project plan.

Federal Depository Library Program.

The Federal Depository Library Program was established by Congress to provide free public access to U.S. Government publications. The program is administered by the Superintendent of Documents, U.S. Government Printing Office. Nearly 1,250 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Libraries designated as regional depository libraries have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions.

The Internet web site for the Program is located at:

<http://www.gpoaccess.gov/fdlp.html>

You may locate the depository libraries in your area by going online to the GPO ACCESS internet site. At:

<http://www.gpoaccess.gov/libraries.html>

The depository libraries that have selected the Item numbers and received publications listed in this catalog may be located by searching the publications in the online Catalog of U.S. Government Publications (CGP) at GPO ACCESS on the internet. At:

The first part of the document is a list of names and dates, arranged in two columns. The names are written in a cursive script, and the dates are in a more formal, printed style. The list appears to be a record of some kind, possibly a roster or a list of events. The names are mostly male, and the dates range from the late 18th century to the early 19th century. The second part of the document is a single paragraph of text, also in cursive script. It appears to be a continuation of the list or a summary of the information provided. The text is somewhat faded and difficult to read, but it seems to contain some important information. The overall appearance of the document is that of an old, handwritten record or ledger.
